AI Prompt engineer

Description

We are looking for a AI prompt engineer to join our team of AI consultant experts. The ideal candidate should have a degree in linguistics and experience working with large language models such as ChatGPT or Bard. The candidate should also have a good sense of humor and be able to write prompts that are engaging and entertaining.

Responsibilities

- Write text-based prompts that can be fed into the back end of AI tools.
- Train AI tools to deliver more accurate and relevant responses to the questions real people are likely to pose.
- Work with other members of the team to develop new applications of LLM technology.
- Maintain an up-to-date knowledge of the field.

Qualifications

- Bachelor's degree in linguistics or related field.
- Experience working with large language models such as ChatGPT or Bard.
- Excellent writing skills with a good sense of humor.
- Ability to work independently and as part of a team.
- **Aii Methodology:** You'll be the aii captain steering the ship of deployment, ensuring smooth sailing from the harbor of development to the shores of implementation.
